Pi Xiu, Tai Shui plague,  
laughing buddha

### 8 White

set up **money altar/**  
money jar  
display jade, crystal  
Increase **Earth**  
element  
(yellow/brown)

Northeast

North

Northwest

East

West

**1, 8, 9 stars** are *the most auspicious* and **2, 3, 5 stars** are *inauspicious* in 2020.

## 1 White Star (Northeast in 2020)

Also called the "Tan Lang" 貪狼 star and "Wen Chang" star. Water element.

1 White star is related to literature, art, intelligence, promotion, fame, social status, popularity, and career advancement.

---

The Northeast belongs to the Earth element. *Earth is controlling Water*, so there is a tendency of **urinary/ kidney** problem especially for the **middle boy child** or middle age male.

**Add more Metal element** such as white color or metal decoration here to *generate more water and balance out too much Earth element*.

Since this is the **Wen Chang location**, it is good for *study room, office, or bedroom*. Place "Wen Chang Pagoda" or "Chinese brush set" to activate the *intelligence and promotion luck*.

## 2 Black Star (South in 2020)

Also called "Ju Men" 巨門 star. Earth element.

2 Black star represents illness, accident, quarrel, or financial loss.

---

South belongs to Fire element. *Fire generates Earth* so it strengthens the #2 star. South is also related to **middle daughter** and fire related disease. Watch out for heart, small intestine, and inflammation problem, especially for *middle daughter or middle-age women*.

**Water element** such as black/ blue color can balance between the Earth and Fire energy and reduce the #2 star's negative energy.

Feng Shui cures for #2 star are similar to #5 star because both are Earth element. **Metal objects** can reduce the Earth energy of the #2 star. Use **bronze Hulu** (for health and reduce negative Qi), **5 Emperor's coin, brass/bronze Pi Xiu or Qi Lin**.

In 2020, **The Three Killings (San Sha)** and **Yearbreaker (Sui Po)** are both in the South. So avoid renovation here in 2020. **Avoid sitting on the South side.**

## 3 Jade Star (North in 2020)

Also called "Lu Cun" 祿存 star. Wood element.

3 Jade stars represents quarrel, dispute, or legal issue. #3 star can bring prosperity and fame in the right time but period 8 is not the best time for the 3 Jade star.

---

North belongs to the Water element. Water generates Wood so it is a compatible location.

To reduce the negative power of #3 star (Wood), apply Metal element (white, silver, gold....) to control the Wood, or Fire element such as red, purple, or orange color to reduce the Wood. Avoid plants and green colors (Wood) here to reduce the #3 star.

In 2020, North is also the location of *Tai Shui (Grand Duke of Jupiter)* so avoid facing North direction when sitting down, and avoid renovation in the North part of the house.

Pi Xiu is the best Feng Shui cure for Tai Shui. Tai Shui plague/amulet/card is another traditional cure.

Displaying natural crystals can enhance the energy of the space. Laughing buddha can reduce the fighting energy.

## 4 Green Star (Southwest in 2020)

Also called "Wen Qu" 文曲 star. Wood element.

4 Green star is related to study, art, literature, culture, and career advance. It is also related to romance (Peach blossom), social life, and emotional well-being.

---

Southwest belongs to the Earth element. Wood controls the Earth so we can add Fire element (red, purple, orange) to balance out the energy.

Since this is the "Wen Chang 文昌" location, you can display 4 lucky bamboo (for #4 star), Chinese ink brush, or Wen Chang Pagoda to enhance your intelligence and exam/promotion luck.

Place rose quartz, amethyst, or a pair of Mandarin ducks for relationship luck.

In Period 8, # 4 star is not a timely star so the negative side effect can be relationship trouble (rotton peach blossom luck) or emotional problem.

## 5 Yellow Star (East in 2020)

Also called "Lian Zhen" 廉貞 star. Earth element.

5 Yellow is the **number 1 negative star**. It relates to **accident, money loss, fire, ghost, and all kind of misfortune**. It is best to **avoid renovation or too much activity here**.

.....  
East belongs to the Wood element. *Wood controls the Earth* so the power of 5 yellow star is reduced here.

**Avoid important areas** in the East such as main entrance, living room, kitchen, or bedroom. **No renovation in the East in 2020 Rat year** to avoid disturbing the 5 Yellow star.

Similar to the #2 Black star Feng Shui cure, **use Metal element** to reduce the negative of the Earth energy. Use **white, silver, golden colors, metal furniture, bronze/brass Hu Lu, clock with metal pendulum, 5 element pagoda, metal windchime or symbol of Qian** (3 unbroken lines in the Ba Gua, meaning the most yang and heaven).

**Reduce Earth element** (less yellow, brown, or plants with soil) here.

## 6 White Star (Southeast in 2020)

Also called "Wu Qu" 武曲 star. Metal element.

6 White star is related to **authority, career promotion, wealth, and mentor luck**.

*It is not a timely star in period 8*, so #6 star can show as **stubborn, reckless, or controlling behavior, and lawsuit, accident, or financial loss**.

.....  
Southeast belongs to the Wood element. *Metal controls the Wood* so it is a conflicting relationship. It tends to affect **oldest daughter** most. Watch out for liver, gallbladder, and eye problems (*Wood type disease in Chinese medicine*).

**Water element** can harmonize Metal and Wood (*Metal generates Water and Water generates Wood*). Display **black or blue furnishing or water feature** such as a **fish tank**.

6 White star is also a **money star**. You can set up a **money altar (treasure chest)** here with **5 emperor's coin, crystal, Qi Lin, Pi Xiu, or Money Toad**. Display **Quan Yin** statue for mentor luck and protection.

Since #6 is not a timely star, watch out for **sharp metal objects** and **avoid gambling**.

## 7 Red Star (Center in 2020)

Also called the "Po Jun" 破軍 star. Metal element.

7 Red star is related to **communication, mass media, quarrel, fighting, accidents related to fire or knife/sword.**

In the body, it's related to the **lung, respiratory system, and large intestine.**

---

The Center belongs to the Earth element. Earth generates Metal, so it is a good location for the #7 star. However, #7 star is **outdated** in the Period 8 so it *does not bring strong luck.*

**Avoid sharp metal** or triangle shape objects in this area to *prevent accident.* Be careful about get into a fight or quarrel.

**Water** can reduce the Metal element. **Add a fish tank, water plant, or water fountain to soften the strong Metal energy.** Use the colors of water to decorate: **black, blue.**

Display **black or blue crystals** or **jade Quan Yin** to enhance the energy.

## 8 White Star (Northwest in 2020)

Also called the "Zuo Fu" 左輔 star. Earth element.

8 White star is the **number 1 money star.** Since we are in Period 8, **it is the timely star.** It's related to **fame, prosperity, longevity, career, real-estate, and offspring luck.**

---

The Northwest belongs to the Metal element. Earth generates Metal, so it is a good location for the #8 star. #8 star is the **most auspicious star in the Period 8** so take full advantage and **setup important spaces** (master bedroom, living room, office, kitchen...) here.

To activate the wealth luck, place ceramic vase, yellow crystal, or money jars to enhance the **Earth element** of the number 8 star. Use **earth color of yellow, brown, or beige.**

If you have **too much Metal** element in your birth chart, you can **reduce white, gold, silver color or display less metal objects** here. Too much Metal can weaken the Earth.

## 9 Purple Star (West in 2020)

Also called the "You Bi" 右弼 star. Fire element.

Number 9 Purple star is related to the **festive event, rising energy, and wealth**. It's also related to **helpful people (Gui Ren), love relationship (peach blossom), and real estate luck**. On the other side, it can be related to **heart, eye, blood vessel problem, or fire and accident**.

---

West belongs to the Metal element. Fire controls Metal, so there can be stress and indecision (especially affect **young girls**). Metal is related to lung and large intestine, so watch out for compromised respiratory diseases.

The solution is to add more **Metal element**. Use *white, silver, gold colors*. Display **metal objects or electronics**.

**Earth element** is also very good here. Earth reduces too much fire and also generates Metal. Use *earth colors (yellow, brown, beige...)* and **earthware (ceramic, pottery...)**. Use **purple and red** to enhance *the #9 Purple star*.

Since this is a **money star**, you can set up a **money altar** here and display **money jar, Qi Lin, Pi Xiu, money toad, and other auspicious items** to attract wealth.

## 2020 Year of the Rat

*Yang Metal Rat (Geng Zi 庚子 year)*

**January 25, 2020** is the *Chinese new year*  
(January 1st on the Chinese lunar calendar)

The Rat year ends on **February 11, 2021**.

For *Chinese metaphysics* such as Feng Shui or fortune telling,  
the beginning of the year is from  
the "**beginning of Spring**" (Li Chun 立春: from the 24 solar terms)  
around **February 4th** of the western calendar.

## No construction areas in 2020 Rat year

3 Killings (San Sha): South  
Year Breaker (Sui Po): South  
Tai Shui (Grand Duke Jupiter): North  
5 Yellow Star: East  
2 Black Star: South

---

**North and South** are not auspicious directions in the Rat year.  
**East (5 Yellow)** is also *inauspicious*.

Avoid staying in these areas for too long.  
No construction or noisy movement here.  
Relocate or re-arrange furnitures if necessary.  
Place at least *one cure* in these areas for protection.

## Best areas in 2020 Rat year

1 White star: Northeast  
8 White star: Northwest  
9 Purple Star: West

---

**Northeast, Northwest, and West** are the most auspicious areas  
in 2020 Chinese Rat year.

Set up important rooms in these areas.  
Stay in these areas longer.  
Add enhancers such as **Pi Xiu, Qi Lin, dragon, crystals, and jade** for  
prosperity and good fortune.
