

## Reversible scarf pattern

The reversible cable is made of 12 stitches of ribbing (K1, P1)\*. It will look like 6 rows of stockinette stitches on either side. The cable is crossed every 12 rows. It can be adjusted for different look. The left and right side of the cable are seed stitches. Make it completely reversible.

### Pattern

Yarn: I use one ball of "Stitch Studio by Nicole - Belle". 300g, 263 yard/240m. 100% acrylic. 9 mm needle/ US size 13. Any bulky or worsted weight yarn will work. Gauge is not as critical in scarf.

You need a cable needle or similar size crochet hook for cable knitting. A big safety pin will work too. Sometimes it is easier to knit by moving the stitches in the cable needle back to the left needle, rather than knitting directly from the cable needle.

**Cast on** 24 stitches.

row 1. (K1, P1)\* repeat for first 6 stitches, place a stitch marker, (K1, P1)\* for 12 stitches, place a marker, (K1, P1)\* repeat for the last 6 stitches.

row 2. (P1, K1)\* repeat for the first 6 stitches, (K1, P1)\* for 12 stitches, (P1, K1)\* for the last 6 stitches.

repeat row 1 and 2 until row 5.

row 6. Cable crossing row - (P1, K1)\* repeat for the first 6 stitches, put next 6 stitches on cable needle in front of the knitting, knit the next 6 stitches in ribbing pattern (K1, P1)\*, knit the 6 stitches from cable needle in ribbing pattern (K1, P1)\*, (P1, K1)\* for the last 6 stitches.

**Now repeat the following 12 rows until your desired length:**

1. start repeating row 1 and row 2 for 11 rows,

2. row 12 (cable row, same as row 6) - (P1, K1)\* repeat for the first 6 stitches, put next 6 stitches on cable needle in front of the knitting, knit the next 6 stitches in ribbing pattern (K1, P1)\*, knit the 6 stitches from cable needle in ribbing pattern (K1, P1)\*, (P1, K1)\* for the last 6 stitches.

**The last 6 rows:**

repeat row 1 and row 2 for the last 5 rows.

Bind off and weave in the ends.

You are done. Lightly steam block.
